UIT HET GAREEL

Stichting Uit Het Gareel is an on- and offline initiative from The Hague with two main goals; to create a platform for young artists to showcase their work and to introduce people to the immersive world of art in an approachable way. These goals set the foundation for several events, such as Uit Het Gareel Festival, Uit Het Gareel Art Market, exhibitions, collaborations, and assignments. An important part of our events is the casual contact between visitors and artists. This mix of a relaxed atmosphere, young and upcoming artists, local DJs and bands make our events and art fun, valuable and interesting for everyone!
